Majors for Associate Degrees

In order to graduate with an associate degree, every degree-seeking student must complete a major with a minimum GPA as specified by the major department or program. Usually, this minimum major GPA is 2.00 on a 4.00 scale, but some majors require a higher GPA. Students with transfer work must also attain the minimum major GPA (2.00) on a combination of transfer credits accepted toward the major and credits attempted toward the major at UW- Parkside. A minimum of 24 of the 60 credits toward the associate degree must be completed at UW-Parkside. UW-Parkside offers the following majors for associate programs:

Programs Offered

- Arts and Sciences (AAS) (<https://catalog.uwp.edu/programs/associate-degree-programs/arts-and-sciences/>)
- Financial Economics (AS) (<https://catalog.uwp.edu/programs/associate-degree-programs/financial-economics/>)
- Green Chemistry (AS) (<https://catalog.uwp.edu/programs/associate-degree-programs/green-chemistry/>)
